**SHEET METAL WORKER (Job Description):**

Sheet Metal workers fabricate and install fittings and duct work used in the construction or industry for heating, ventilation and air-conditioning systems in residential, commercial and industrial applications. They set up and operate shears, press brakes, bending rolls, welding machines and other equipment to cut, form and attach metal together for applications such as metal roofing and stainless-steel work for restaurants, kitchens and hospitals. They prepare shop and field drawings manually and with computer programs.

**Geographical Area:** These standards apply to the geographical area of Deschutes, Crook and Jefferson Counties, in the State of Oregon.
