Notices of apprentice placement will be sent after an electronic meeting in May 2025

Description of Work: This trade encompasses both installers and repairers and can be inside or outside work. Installers are involved with all the telecommunications wiring in a new or remodeled building, mounting equipment, terminating cables and testing the finished product. Repairers need to be able to quickly diagnose problems by using a wide variety of test equipment, and then need to correct the problem. These problems may be within the customer’s equipment, the local utility company or the long-distance company. A repairer needs to have the mental flexibility to change course at the beep of a pager. Whether it’s splicing fiber optic cable or putting in thousands of lines of data into a state-of-the-art PBX, the employment outlook for licensed Limited Energy Technicians Class B is strong.

Working Conditions: The work in this trade is done both indoors and outdoors, in existing and newly constructed buildings, in residential and commercial structures, and in all kinds of weather around noise, mud, and debris. Individuals in this trade often work in cramped areas and in awkward positions.

Work Processes: This is a 4,000 on-the-job hours (approximately 2 years) training program. Apprenticeship consists of both on-the-job training and related classroom training. The on-the-job training consists of the following:

- | | |
|---------------------------------------|--------------------|
| 1. Installations..... | 1,750 hours |
| 2. Troubleshooting & Maintenance..... | 250 hours |
| 3. Occupation Specific..... | <u>2,000 hours</u> |
| Total | 4,000 hours |

Related Classroom Training: A minimum of 144 hours of classroom training shall be required each year the apprentice is in the program. Classes are held through Lane Community College (fall, winter and spring terms). Satisfactory progress must be maintained in related training classes in order to remain in the apprenticeship program. **It is the responsibility of the apprentice to pay for all tuition costs and books associated with their program unless provided by the employer.**

Wage Schedule: The average wage for journey workers employed by participating employers in the occupation as of January 1, 2025, is \$39.06 per hour. Minimum starting wage will be \$23.43 per hour. An Apprentice starts at 60% of the wage with increases every 1000 OJT and equivalent schooling

Geographical Area: These standards apply to the geographical area of Deschutes, Crook and Jefferson Counties, in the State of Oregon.
