## **Job Description**

Licensed Limited Renewable Energy technicians install, maintain, finish, and remove renewable energy systems, including wind, solar, micro-hydroelectricity, fuel cells, and engine generators for off-grid systems. Work processes involve wire pulling and splices, conduit, flex, tray, and duct, control panels and controls, wiring devices, removal and finish work, installation of solar electric systems, and may include rooftop work, heavy lifting, digging and trenching, and other physical labor associated with the installation of solar electric systems.

This is a 4000 hour on the job training program with 288 hours of schooling/related training

## **Working Conditions**

This work is performed indoors and outdoors and requires standing, bending and reaching in cold, wet conditions, in confined crawl spaces and at heights. Tools include electrical metering devices, cable pulling devices, electrical hand tools, soldering tools, hammers, drills and side cutters.

**Wage Schedule:** The average wage for journey workers employed by participating employers as of April 15, 2019 is \$30.91. The average wage in this occupation will be updated by the Committee at least annually and will be recorded in the minutes of the Committee. The progressive wage scale to be paid the apprentice is as follows:

1 <sup>st</sup> 1,000 hour period	50% of average wage
2 <sup>nd</sup> 1,000 hour period	60% of average wage
3 <sup>rd</sup> 1,000 hour period	70% of average wage
4 <sup>th</sup> 1,000 hour period	80% of average wage

## **Notes:**

1. Non-returnable documentation proving educational requirements (a copy of high school diploma, high school transcripts, GED certificate) and age (copy of driver's license) must accompany the application.
2. Employers may also require a valid driver's license, drug testing, or other job-related considerations.
